OUR PRIDE.

With over 5,500 resellers in Europe and offering more than 30 brands, we are growing strongly.

Innovative platform

"Your on-demand software store". A digital software store for IT resellers and MSPs, where you can easily and quickly purchase software and cloud services, then activate and control your purchases wherever you are – at the office, with a client or on the road. Whether you are providing software for one consumer or a multinational organisation, using the DSD platform software can be bought and activated in just a few clicks.

Extensive software offering

With our large range of software, you can facilitate the full IT infrastructure of your clients from your on-demand software store. From various security solutions and a complete range of Microsoft solutions, to cloud services for, among other things, online workstations, backup & recovery, VoIP, monitoring and accounting. An variety of 30 brands, which we continuously adapt and expand based on the needs of the market.

Reliable support

A small team of sales, marketing and support specialists help you in all phases of the customer lifecycle: from marketing and sales support during pre-sales to technical support during and after the activation of the software or service. Our small team is all about personal contact, short queues and quick action – this is how we support our platform on a daily basis.

> *DSD and Microsoft: a golden combination! Through the DSD platform we offer our clients a wide range of Microsoft solutions and cloud services. Order 24/7 with instant, fully digital delivery.*
